THE SCHOOL

A IDENTIAL BOOK

BY vote of the Board of Editors and with the approval of our adviser, Dr. Harry B. McCarthy, we are reviving "THE MIRROR" as our school annual.

As we scan over its pages, we shall find it in truth the reflections of the day when we were students—truly a mirror: this is our sincere wish in the years before us.

In our endeavor to please all and to offend none; please bear in mind that we are none other than those possessed of average intelligence and are prone to mistakes as anyone else.

Offering no apologies, we therefore submit this annual to the tender mercies of the readers.—*The Editor.*

DEDICATION

To

DR. J. BEN ROBINSON

DR. HORACE H. HAYDEN

AND

HIS INFLUENCE ON DENTAL EDUCATION

By

DEAN J. BEN ROBINSON

The chartering of the Baltimore College of Dental Surgery in 1840 was not an extemporaneous expression of a desire to provide dental educational opportunities to those about to begin the practice of dentistry, but the ultimate fulfillment of an absorbing purpose to elevate dentistry through improved educational standards and greater scientific attainments of those engaged in its practice. It was more than a casual purpose; it was an ideal which served for more than forty years to actuate Dr. Horace H. Hayden, one of the most profound characters among the great in the annals of dentistry. This ideal was expressed in the thought that dentistry is a worthy branch of the healing art, equal in importance and entitled to the same consideration as any other medical specialty; and for one to qualify as a practitioner of oral surgery his scientific attainments should compare favorably with the educated physician. In harmony with this ideal Dr. Hayden devoted himself to a mastery of the medical sciences, applied his energies, conformed his practice and directed his great purpose toward improving the science and art of dentistry. He personified the attributes of a learned scientific profession and laid the foundation upon which the superstructure of independent dentistry has been erected.

There is a false impression pervading the atmosphere of dental history insinuating that Dr. Hayden lacked a background of medical training which would qualify him to begin the practice of dentistry with a full appreciation of its medical significance. This misconception finds excuse in a statement made by Dr. Chapin A. Harris, which has been carelessly and thoughtlessly handled because of its romantic appeal. The reference alluded to follows: "While in New York he had occasion to call on Mr. Greenwood, a dentist, for his professional aid. While under treatment, the thought suddenly struck him that he would like to be a dentist. He, therefore, immediately procured the few books which were then accessible and not apprehending any deficiency in mechanical skill, he directed his course southward in quest of a location . . . arriving in Baltimore, 1804." *Suddenly* and *immediately* appearing in this text have caused readers to conclude that Hayden's entry into the profession was precipitate. Anyone with a knowledge of Dr. Hayden's profound belief in education can regard the loose construction placed on this statement only as ridiculous fancy. There are no recorded facts which accurately portray his scientific accomplishments at the time of his arrival in Baltimore. It is therefore necessary for us to take fragmentary evidence and deduce conditions which could reasonably have existed to provide the scientific attainments which Dr. Hayden possessed.

The date of Hayden's visit to Mr. Greenwood was fixed by Chapin Harris as 1792, while the time of his arrival in Baltimore is referred to as 1804. The latter date is known to be incorrect. Evidence points to 1800 as the probable year of his arrival. If Hayden arrived in Baltimore as early as 1800 where and how had he spent his time from the year 1792 when "The thought suddenly struck him that he would like to be a dentist," Harris goes on to say, "To this end he commenced

the study of medicine and the extensive knowledge which he acquired was such as to secure the confidence and respect of the medical profession," and further, "He became the companion of the most eminent physicians and medical professors of Baltimore." There is every reason to conclude that Hayden, somewhere between 1792 and 1800, earnestly and seriously prepared for dentistry as diligently as he would have done for the practice of general medicine. In 1804 the merit of his qualifications was attested in an article, *Ulcerated Tonsils*, published in the *New York Medical Repository*. The limited facilities of that period for printing contributions to medical literature and the fact that this discourse on a subject of interest to medicine merited publication is significant.

We have every right to assume that his preparation for the practice of dentistry was in accord with his educational ideals. Further, we know that all through his life he strove to improve the scientific background of others. As Harris expressed it "Having by his unaided industry and talents acquired distinguished professional reputation, he was anxious for the elevation of the respectability of the art." Controlled by this great passion for professional improvement, we can readily understand Simon's statement that "Almost from the time when he began the practice of his profession in Baltimore, he was accustomed to hold classes in dentistry in his office at night with no light but the tallow dip." And moreover, as some of these men served their tutelage they were encouraged to study medicine at the University of Maryland. This attention to scientific preparation further emphasizes the educational ideal which Hayden conceived and spent his life in achieving.

Impressed by health values obvious in dental practice and appreciating the high scientific standards of the art of that day, the Medical and Chirurgical Faculty of Maryland, which was organized to function in the interest of higher scientific attainments of its members and authorized to safeguard the health of the public through licensure interpreted the powers vested in its Board of Examiners to include dentistry as a specialty, and to require a license of those practicing this branch of the healing art. It has been shown how Dr. Hayden, because of his unusual attainments, had been accepted by the leading physicians of his day. From this we may conclude that Hayden's influence operated to secure for dentistry acceptance into this great medical organization, a recognition that has no parallel in dental history. This was the first effort in America to regulate the practice of dentistry as a specialty of medicine along lines compatible with the esteem in which Dr. Hayden believed it should be held. It is noteworthy that the distinguished Hayden received from the Faculty the first license issued to practice dentistry under this ruling.

The first lectures delivered under the auspices of institutional education were delivered to medical students in the University of Maryland, School of Medicine between the years 1821 and 1825. Again by us of fragmentary evidence and the time element we are able to get a rather clear picture of these lectures. (a) The following statement made by Chapin A. Harris bears on this point: "About 35 years ago the late Dr. Hayden of Baltimore delivered courses of lectures on dental surgery in the University of Maryland—the experiment however, was unsuccessful." This was written in 1851 and if correct, shows lectures were delivered by Hayden in 1816. The same author in his *Dictionary of Dental Science* states that "In such high estimation was he held that he was invited about the year 1825 to read a course of lectures on dentistry before the medical class of the Maryland University." (b) The *Medical Annals of Maryland*, under events of importance

to medicine for the year 1821 records the following item, "Instruction in dentistry given in the University of Maryland." (c) About 1904 Mr. William Mozart Hayden presented to the Dental Department, University of Maryland a series of lectures represented as those used by Dr. Hayden when he lectured in the School of Medicine. This manuscript was lost in razing the old Dental School Building. The Catalogue of the Dental Department, University of Maryland, had from its beginning in 1882 given the dates of the first dental lectures as "1837," but in 1904 and for the years following, the catalogue carried the following information: "In 1821-22 the first dental lectures in America were delivered in the University of Maryland." This was written by Dean Gorgas and because of its abrupt appearance indicates some new and convincing evidence which he had recently discovered. (d) Dr. Samuel C. Trippe, Royal Oak, Maryland informs the writer that he formerly had in his possession notes of lectures delivered by Dr. Hayden. These were taken in class by a relative of his. Unfortunately, the manuscript was lost in a fire that destroyed his library. However, he gave the name of the relative as Dr. Nicholas Hammond who graduated from the University of Maryland in 1823. (e) Dr. Willis H. Baxley writing from London to Dr. R. B. Winder refers to the subject as follows: "Dr. Horace H. Hayden delivered to a few medical students of the University of Maryland some lectures on Dental Physiology and Pathology. *I was one of his class.*" Were Dr. Baxley a student in his senior year, these lectures were given in 1824, that being the year he graduated. From this evidence we may reasonably conclude that Hayden lectured in the medical school for the period beginning 1821 and ending 1825. This course of lectures is the first effort at institutional dental teaching in America and was an expression of the high ideals and zealous interest of Dr. Hayden in promoting higher standards in dental practice, and marks the beginning of a struggle for dental educational opportunities which culminated in the founding of the Baltimore College of Dental Surgery.

These lectures were interrupted in 1825 by the deplorable state of internal strife in which the School of Medicine was plunged. Discord and dissension among members of the faculty precipitated a legal battle between the Regents of the University and a newly created Board of Trustees which was continued until 1837. This legal fight between the regents and trustees was carried on until 1837, when the board of regents had their rights restored in a ruling by the Court of Appeals of the State of Maryland, at which time the Regents regained control of the University and, it is said, Hayden resumed his lectures.

In striving to elevate the standards of dental practice, Dr. Hayden was ably seconded by the distinguished Dr. Chapin A. Harris, who came to Baltimore about 1830, then a young man twenty-four years of age. Dr. Harris joined with Dr. Hayden in founding the Baltimore College of Dental Surgery and was largely responsible for the tremendous success of autonomous dental education.

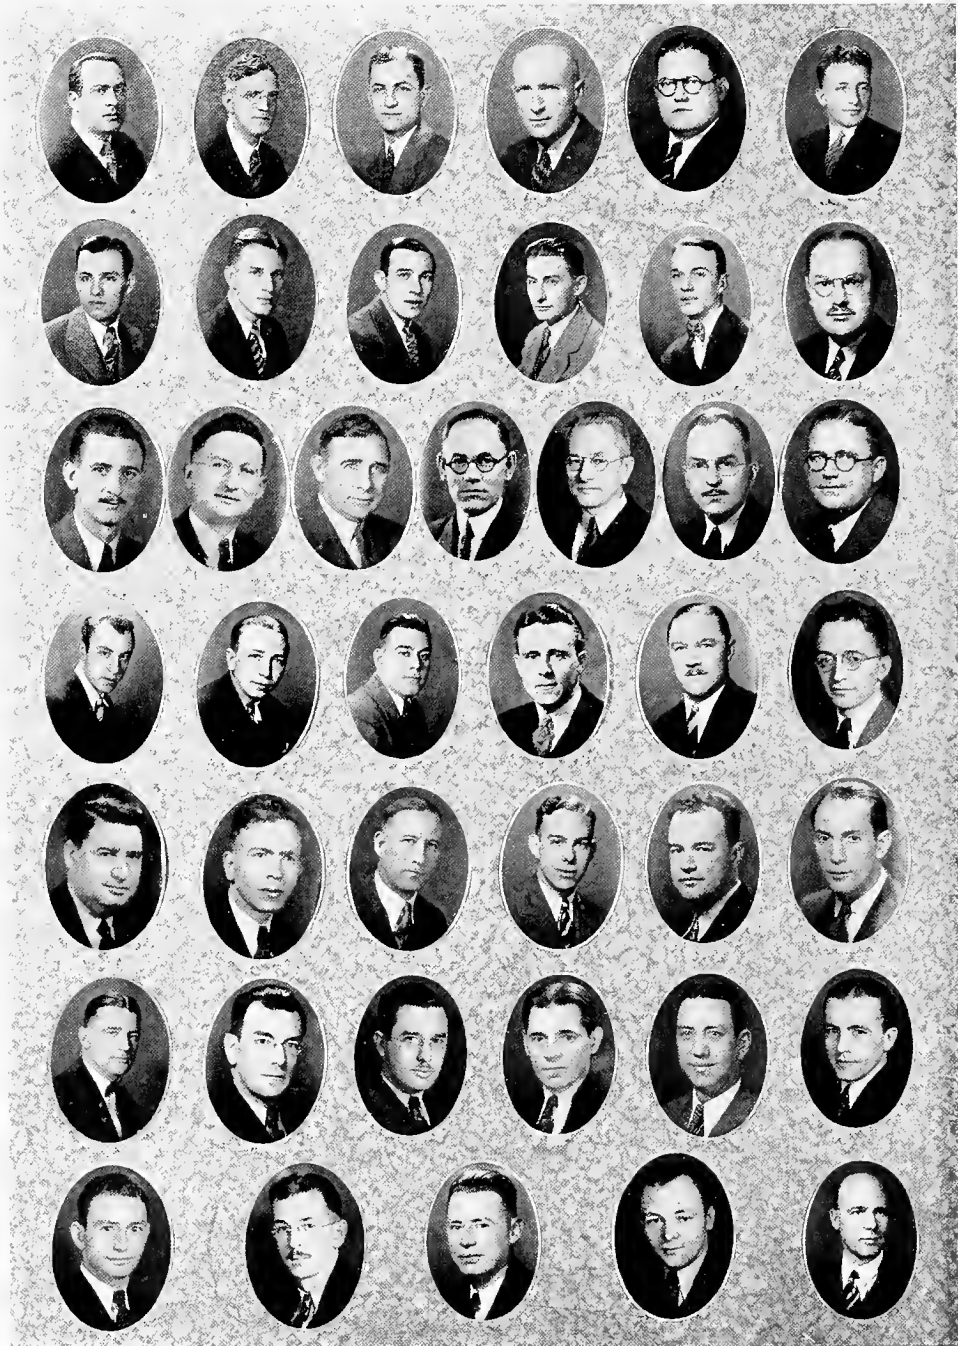

Much has been written concerning the appeal to the School of Medicine, University of Maryland to create a chair of oral surgery, pointing out the individuals responsible for such an effort. But most of it is highly speculative and because of the lack of evidence, may be thrown out. There has been spirited discussion as to who first proposed the dental college. That is beside the point. The important thing is that Dr. Horace H. Hayden's life work personified the ideals of scientific dentistry recognizing at every point all of the elements which go to make up professional integrity based on maximum values to be found in scientific education, and the culmination of his resolute ideal was the founding of the Baltimore College of Dental Surgery.

Dr. Edward Hoffmeister,
A.B., Pharm. C., D. D. S.
1870 - 1931

**EDWARD HOFFMEISTER,
A.B., D.D.S., PHARM.G**

1870-1931

Edward Hoffmeister was born in Baltimore, Md., December 9, 1870. He received his preparatory schooling in the Baltimore City College, then entered the Johns Hopkins University, from which he graduated with the Bachelor of Arts Degree. He continued his studies in the University of Maryland, School of Pharmacy, where he received the degree of Graduate in Pharmacy. He then entered the Baltimore College of Dental Surgery, from which he graduated in 1894.

Immediately after his graduation from the Baltimore College of Dental Surgery, he was appointed instructor in chemistry and he later became assistant professor of the subject under the late William Simon, who paid tribute to Dr. Hoffmeister's aid in the preparation of his textbook, "Simon's Chemistry." He soon was made professor and head of the department of materia medica, therapeutics and pharmacology in the Baltimore College of Dental Surgery, in which capacity he continued until his death. The high regard in which he was held by a vast concourse of former students testifies to his unusual ability as a teacher.

Dr. Hoffmeister was quiet, reserved, courteous and kind at all times, preferring to carry on his service to the profession through the benefits which students might derive from instruction received at his hand. He never aspired to recognition of his abilities beyond the simple fact of doing his duty promptly, carefully and thoroughly.

He retired from active practice about a year ago, but continued teaching. He was a member of the Baltimore City Dental Society, the Maryland State Dental Society, the American Dental Association, the Alumni Association of the Baltimore College of Dental Surgery, a Mason, a member of Friends Meeting House, and a member of Xi Psi Phi and Omicron Kappa Upsilon fraternities.

S E N I O R S

HISTORY OF THE SENIOR CLASS

The art of writing a class history, especially of such an illustrious class as 1932, is indeed quite an undertaking and should, in order to live up to its definition, include incidents which have now become history since our class embarked on the more oarless perilous seas of dentistry.

It was in the fall of 1927, that a group of men, green perhaps, in more than one sense of the word, congregated in front of our now old school, and discussed the whys and wherefore of dentistry. Men, it seems, were here from all portions of the country. North, South, East and West had their respective representatives and one man went as far as to acclaim that he had come "clean" from Pittsburgh. Soon the group dispersed, some to look at the amazing secrets of the embalming room and others to search out the campus.

Our first day of school was not attended by any outbursts, yet perhaps, some were more or less homesick for the farm, when it came their opportunity to attend a lecture not far distant from the adjoining stables. Dr. Vanden Bosche, however, soon turned our thoughts to higher and nobler things when he demonstrated the art of writing chemistry formulas, which we might add, has since become one of the lost arts among many of us.

Perhaps the most irksome occupation of our first year was the grinding and grinding and more grinding of our extracted teeth in order to determine the "ins" and "outs" of a tooth. Why, thought many, should we grind here all day getting saturated with tooth lust when there are nobler things to achieve—besides here's a good show at the Century. But as time went on we did it with many other disagreeable things and liked it.

With the advent of our sophomore year a few casualties were sustained, to be sure, but the mortality was not high and with addition of twenty odd new members, our class delved deeper into the secrets of dentistry. Physics, we found, was "cultural" and with anatomy on our curriculum we decided that perhaps some of us should have become morticians we were so deft in disassembling some of our less fortunate brethren.

We had our first real taste of dentistry when we had our first course in prosthetic technic. We learned to tear down and set up teeth, especially to tear them down, with amazing alacrity.

In our pre-junior year we began to feel more like dentists, especially when we began cavity operative courses. This is a snap, thought we, it'll be a cinch to do. How different we found this to be, and how difficult to keep the bur from our fingers.

The crown and bridge work proved interesting not only to us but to our parents, especially when we had to write home for more money for gold. We had burned a crown or bridge, we were forced to explain, and "burning our bridges" seemed to follow us through our later years.

When we finally entered the clinic, some of us, in our new white gowns, were prepared or thought we were, to have them, "bring on the patients," but a few days later we began to wonder just what it was all about. Some began to wonder just what good that little mouth mirror was anyway and couldn't we do better with just one hand? The other seemed to be always in the way.

With experience, however, these little difficulties were ironed out and at last we became full fledged seniors standing on the threshold of our chosen profession.

With the goal of our efforts for five years just ahead, we are saddened by the thought that the pleasant associations which we have formed will in a large measure be history, so that the faculty and alumni will have no reason to blush for the achievements of the greatest class yet graduated from the dental department of the University of Maryland.

D. W. FARRINGTON, *Historian*.

IRVING ABRAMSON "Abe"

Baltimore, Md.

Σ E Δ, Gorgas Odontological Society.
Baltimore Polytechnic Institute

The local papers should carry the following headline when "Abe" graduates "Local Boy Makes Good." He never fails to start the class off right with his snappy comeback "Here."—An old Spanish custom.

CHARLES ROBERT APPLIGATE "Appie"

South River, N. J.

Ξ Ψ Φ, Gorgas Odontological Society.
South River High, Blair Academy

Meet the Lutherville sheik folks—no foolin', this boy has a way with women that should no doubt build him a fine and dainty feminine practice. Bob was a forward on the basketball team during '30 and '31 and would have starred were it not for Fatima—"the cigarette vampire." Hurrah! for the whole State of Maryland.

EDWARD JENKINSON BALL "Ed"
 Paterson, N. J.

Ψ Ω

Paterson High, Alfred University

Eddie reflects the smooth appearance no doubt attained in his associations with the silk mills of Paterson. We understand that Eddie is being groomed for a trusteeship at Goucher. They say she is saving his last curly golden locks.

MIRROR

CARL LORENZ BASCH "Tic-Do"
Lakewood, N. J.
Α Ω, Τ Ε Φ
Lakewood High

The exponent of English style, in other words, have you seen his green hat? Did Carl ever tell you about the time he and Al Theodore visited the art museum? Great line, too, in answering queries in lecture. He once reported on Tic-Doulourex.

CHARLES S. BEAMER "Charlie"
Cumberland, Md.
Ξ Ψ Φ
Allegheny High

Charley is also an aspirant for the wrestling crown. He demonstrated his ability at the 104th Armory a short while back. He hasn't found his weakness yet, girls—suppose one of you try? Charley certainly makes last nite cramming a success.

NATHAN PHILLIP BERMAN "Nat"
Jersey City, N. J.
Bayonne High

Affectionately known as "Nat," but would rather be called "the old maestro." Does Berman and Bernie sound alike? Anyway he is indeed a very busy person nowadays trying for the points. He now and then gets a plate off, too.

MIRROR

EDGAR L. BESSETTE, A.B. "Eddie"
Providence, R. I.

Θ Φ Ε

Assumption High, Assumption College

"Tis many friends I have" and it is many you will always have, Ed. Make 'em and keep 'em, but let us in on the secret. Ed certainly is one of the best liked fellows in the class. He never lets school interfere with his pleasure. What have you got on the third race, Ed?

JOSEPH BOXER "Pug"

Newark, N. J.

Σ Ε Δ

Central High

Wonder who is getting all the "inside dope," now? Joe Feldblum and Boxer are as inseparable as Newark and N. J. It's rumored that the Penn. R. R. will soon discontinue their excursions to Newark, it's better by B. & O. anyway.

CHARLES EASTERDAY
BROADRUP, B.S. "Broady"

Frederick, Md.

Φ Δ Θ, Gorgas Odontological Society
Frederick High, Gettysburg College

Hello everybody! Here I am in print again. Pretty popular boy, I am, cigars, car and everything. Yes-siree, Charlie's weakness lies in the hospitals. Never mind, guy, we love 'em too. Charley rolls a beautiful 38 when pushed, even with his favorite caffeine stimulants. Hip-hip-Hippo-crates!

MIRROR

SAMUEL H. BRYANT, A.B. "Sam"
Chester, Pa.

Gorgas Odontological Society.
Chester High, Mt. Herman Prep
Western Maryland College

It will take a long time for W. Md. to avenge the humiliation of December 5th. You will be a very old man indeed, Sam, if you ever do see it. Nevertheless, Sam is one of those truly loyal ones right to the end. What a practice he will build, nothing but the demons will stop him. We doubt whether they can.

THOMAS S. CHANDLER "Tom"
Cape Charles, Va.

Cape Charles High, Virginia Polytechnic Institute

"Shirley" always did impress everyone in the nine o'clock class of his idea of the nite before, never grouchy, but darn disturbed looking. Nevertheless, he is a fine "southern gentleman" and like them all he loves his beautiful women—but don't we all—eh! shad-belly? And afternoon teas.

LEON AUSTIN CHENEY "Lon"
Gardiner, Maine

Ψ Ω, Φ Γ Δ, Gorgas Odontological Society.
Gardiner High, University of Maine

Lon is one of the brighter stars from the "Pine Tree State." If we could take school and "love" as seriously there would be no doubt as to our ultimate success. He stands out for his never-varying disposition and conscientiousness in whatever he attempts.

MIRROR

JOHN W. COLEMAN, A.B. "Johnny"
Jersey City, N. J.

St. Peter's Prep, Fordham University

Johnny is one of our degree men, so quiet at school and unassuming that one never knows he is about. Perhaps his worst habit has been to sit in the back row of the lecture hall, but the instructors even spot 'em there, how about it, John?

JOHN D. CORRIGAN, A.B. "Corry"
Wollaston, Mass.

Ξ Ψ Φ

Holy Cross College

Still another Johnnie in our class and he also struts a degree. We always find the two Johnnies together, in fact they might be twins even in their ability to keep up to date in their work at all times. Corry has the fite of the Irish and they never lose.

CARROLL D. DERN, A.B. "Jockey"
Taneytown, Md.

Ψ Ω

Taneytown High, Western Maryland College

Jockey got his famous name following the horses, but not on Baltimore streets. Very serious for a little fellow and a conscientious worker. He makes good in the extraction room by standing on a box and boy how they fly!

MIRROR

HENRY J. EDMONDS, JR. "Jeter"
 Kilmarnock, Va.
White Stone High

Here he is folks, yes sir, right from the tide-water of Chesapeake Bay comes our most ardent student. No obstacle has held Henry Jeter down, and believe-it-or-not he doesn't keep company. We look for him to carry-on the same way.

RUSSELL J. EMORY "Russ"
 Centerville, Md.
 Ψ Ω
Centerville High

Among the great notables from the Eastern Shore we have Russ—a great big "high-boy" with lots and lots of ability and everything. For all of his height Russ always stays on the ground. Well, Russ, the shore awaits you, make 'em "tooth conscious."

JESSE J. ENGLANDER "Jesse"
 Bridgeport, Conn.
Bridgeport High, New York University

A Ω, Class Vice-Pres. 3, 5; Gorgas Odontological Society Vice-Pres. 5; Associate Editor of MIRROR.

Ask me about ipecac—and did I find out what a few drops could do. This and any other questions will be answered by simply dropping a card to this station. Never the greatest but rising high among such mortals, this smiling wooden nutmeg takes his place. Ahem!

MIRROR

DONALD W. FARRINGTON "Don"
 Chelmsford, Mass.
Chelmsford High, Stone Prep, Norwich University

Ψ Ω, Class Sec., 4; Class Hist., 5.
 Don hails from the codfish state. Very quiet, but always determined. He resembles former Pres. Coolidge in many ways. Many of us think he will be our greatest Crown and Bridge technician—he has a technic all his own for forcing on crowns.

JOSEPH FELDBLUM "Smoky Joe"
 Chicora, Pa.
Millerstown High

Coming to us from the blast-furnace area, he earned the monicle of "Smoky Joe" in a short while. He's a fireman on the side. Wonder who's going to give him all the "inside dope" in years to come?

ARTHUR L. FERN "Count"
 Hartford, Conn.
 Δ Σ Δ, Θ Ν Ε
Hartford High

Glad you met me, everybody—the break is all yours and don't forget I still have one more question. Just another nutmeg with high-fol-ooting ideas. Well, Count, nobody will ever keep you in the dark. We won't forget—"Oh, just a mandibular."

MIRROR

NAT N. FRANKEL "Nat"
Asbury Park, N. J.

A Ω, Y Δ Φ, Gorgas Odontological Society: Class Vice-Pres., 1 2, 4.

Asbury Park High

Asbury Park—"God's" playground in Jersey. Ask Nat and he will close his office to go out and sell you a lot. Perfectly right—boost your income by 100% but don't advertise "See Dr. Frankel for lots." Always the pleasant smile. Wear it always—It pays dividends inlays never thot of.

D. RAYMOND GARRETT "Slim"
Waynesboro, Pa.

Ξ Ψ Φ

Waynesboro High

Slim is the "gotta a nickel withya," a friend of us all. Hailing from Waynesboro, we wonder if he trained there for the memorable match with Beamer, Feb. 27th, 1930. Slim has vague recollections of the last half of the Navy-N. D. football game.

JOSEPH D. GFTLIN "Jo-Jo"
New London, Conn.

Σ E Δ, Glee Club.

Bulkeley High, Tufts College

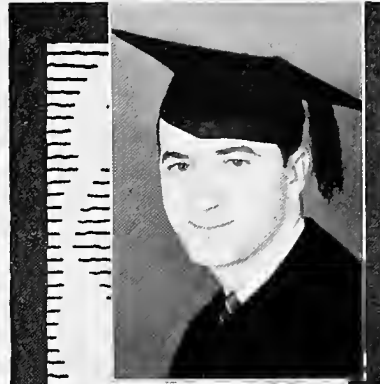

I hail from the sub-base of Conn. I shall keep within my bounds and limit my operations to subs and cruisers. That is a promise we can depend upon, but watch out the dental Lieut. of the Navy might catch you "chiseling in." Have you written the paper for Dr. Bay?

MIRROR

BEN GOODKIN "Ben"

Passaic, N. J.
 Σ E Δ, Glee Club.
Passaic High

Here comes Ben—the fellow from Jersey, and he carries the good wishes of us all back with him. He has never said, but we wonder if he played basketball at Passaic H. Good luck to you, Ben!

RAYMOND J. GRAVES "Ray"

New Haven, Conn.
 Ξ Ψ Φ
New Haven High

If smiles and good nature mean anything Ray should have little trouble climbing the hill. What's more he is a Conn. Yankee, and boy, that is something in itself. A man of many affairs and worldly experiences. Go to it Ray! Feed her the gas.

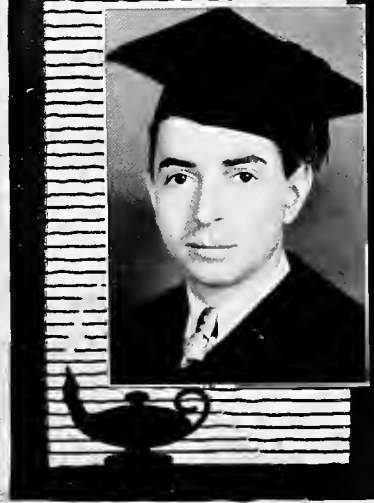

GEORGE THOMAS GROSSHANS "Gross"

Bridgeport, Conn.
Central High

Ψ Ω, Pres. Gorgas Odontological Society, Pres. Class, 3, 4, 5; Council Class Pres.

Who says the president can't be elected three times? George's fine leadership and judgment will soon be past history to the class of '32. We can never forget that inevitable "Say, fellers."

MIRROR

CARL A. HERGERT "Herg"
 Wilkes-Barre, Pa.
Coughlin High

Carl well remembers a certain Hopkins football game because he wore his white helmet for a month afterwards. His family affairs keep him so busy, now, that we only see him when he needs a cigarette. He is the author of, "Why I should have been a tobacco salesman."

EDWIN EUGENE HILL "Gene"
 Elbridge, N. Y.
Elbridge High, Syracuse University
 Gorgas Odontological Society, Class Sec.3.

One of the most conscientious fellows, and always ready to give someone a helping hand. To trip him on any subject is mighty hard—what a student. Bet he swings a mean hoe anyplace—it is all in knowing your turnips—eh! Hill? Plays basketball, too.

MERRILL CLARKE HILLS
 Hartford, Conn.
Hartford High

Ψ Ω, Gorgas Odontological Society, Editor-in-Chief of MIRROR, Class Treas. 4, Gorgas Odontological Treas. 5.

Loosey----is our greatest treasurer since Alexander Hamilton. His acquaintance grew with the query—"Have you paid up?" His power of expression is exemplified in this annual—we leave the verdict to you.

MIRROR

ERNEST MILLER JENNINGS

"Ernie"

Hartford, Conn.

H. P. H. S., Trinity College, Niagara University

Ernie has changed from a wild-man to association with Ham Johnson. We don't know whether his sore toe slowed him up or not. Ernie early realized Miss Lee's instruction ability in the X-ray room. Don't forget to sign your degrees—all of them—Ernie!

HAMMOND LEE JOHNSON "Ham"

Baltimore, Md.

Baltimore City College

Ψ Ω, Gorgas Odontological Society.

Did you know that Ham is a natural-born exodontist? They wait in line for him on his day. Tall and handsome, auburn wavy hair, big smile and everything, lots of us envy him. Ham's superior ability sweeps us all aside. "Lead, Kindly Light"—show us the way!

WARD B. JONES

"Davy"

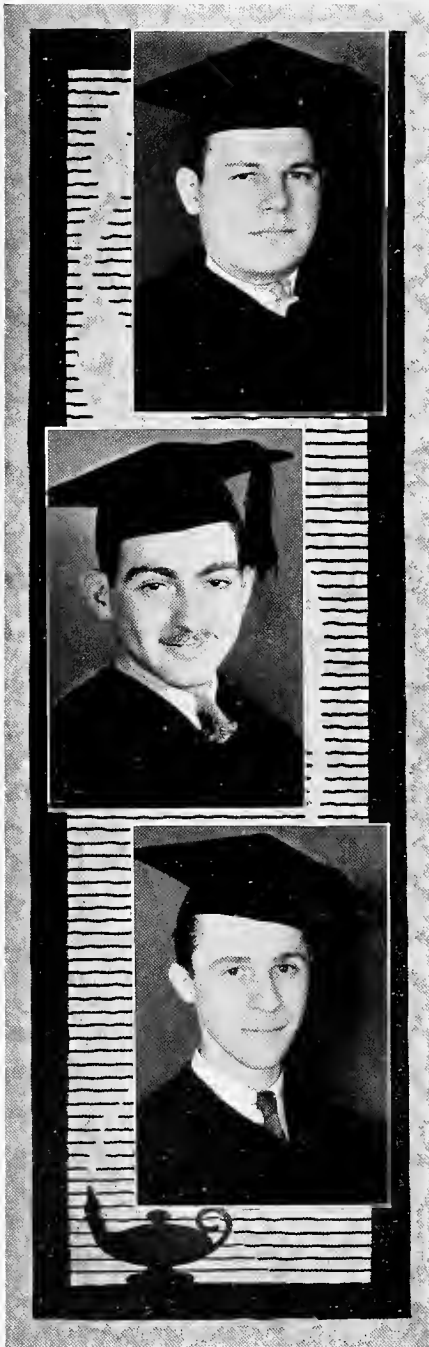

Forest City, Pa.

Forest City High

Small and mighty, yet not so small, Jonsey as history records dashed through the Hopkins band ripping their banner and precipitated a young riot. Even the cops were eluded. Keep up the same spirit Jonsey—"Heroes are Essential Men."

MIRROR

JOSEPH STANLEY KANIA "Joe"
 New Britain, Conn.
New Britain Senior High

Joe's interest in lunchrooms has been his high light. Ever since, it has been a case of "Kania do this" or "Kania do that," I can, can you? Look out for the double chin Joe. Say, Joe, who won the third at Bowie?

IRVING BERT KAPLAN K.O.
 Bayonne, N. J.
Bayonne High, York University
 A Ω, Glee Club 1, 2, 3.

One southpaw who wasn't wild—the "Kayo Kid." Ask him how to get general anesthesia in one stage only.

Oh, yes—he's from Bayonne, where oil is not all. He's saving razor blades, too, lets the beard come to seed.

VAIDEN B. KENDRICK "Vay"
 Charlotte, N. C.
University of North Carolina

Ψ Ω, K A (So), Gorgas Odontological Society.

Ole peg-leg Vaiden had tough luck this year, but for the rest of us it was good luck. Up to this fall we never knew "whether he was or wasn't." North Carolina gains a good man in Vaiden—go show 'em, boy.

MIRROR

Z. V. KENDRICK, JR.

Charlotte, N. C.

University of North Carolina

Ψ Ω, A K (So), Gorgas Odontological Society.

Vance is just a little more serious than Vaiden. He would say he is slightly older, at any rate along with his brother, Vance has been an honor student from the beginning and we know they have more honors coming. North Carolina gains another fine fellow in Vance.

A. JAMES KERSHAW, JR. "Jimmie"

West Warwick, R. I.

West Warwick High

Ψ Ω, Glee Club 1, 2; Orchestra 1, 2; U. of M. Rep. Y. M. C. A.

Indeed, we have been reminded of Jimmie's personality. No wonder with so many trips to Virginia, Rhode Island "reds" are aristocrats and Jimmie is no exception. Many things are expected of this New England Yankee—in Virginia. He is well liked at the "Y", too!

NORMAN S. LINDER "Nuche"

Bayonne, N. J.

Bayonne High

A Ω

That fellow with the "Gentian Violet" complexion and pink shirt! And in case you haven't been told, he's also from Bayonne, which isn't a lot of oil, either. The only fellow who yelled "Present" and got away with it.

MIRROR

HECTOR M. MACKENZIE "Gus"
 Charlottetown, P. E. I., Canada
Mt. Allison Academy and University
 Ξ Ψ Φ, Hockey Team 5.

This "herring-choker" from the province is indeed our best clinic operator. If it wasn't for his height you would never know he is around—quiet and serene. By the way, he plays a good game of hockey, too. We wonder why he is taking the Maine board.

JAMES E. MADDEN "Jimmy"
 New Market, Va.
New Market High
 Ψ Ω, Glee Club 1, 2.

Virginia is my home and Harrisonburg is my playground. What more could a feller ask for. "When the Moon Comes Over the Mountain." Mickey is a little Northern and a little Southern rolled into one. How are your rams Jimmy, and give our regards to Emily and Mabel.

M. LEON MALDONADO "Mike"
 Ponce, Porto Rica
Polytechnic Institute, Porto Rica
 Cosmopolitan Club

"Hello my fren!" Meet the professor boys. Some day in the tropics Mike will teach and preach. As an anatomy lecturer he has no equals—especially reflexes. It must be an old Spanish Custom. Bon Voyage! Don't forget us.

MIRROR

J. ROBERT MANUEL, JR. "Bob"
 Baltimore, Md.
Baltimore Poly

Ξ Ψ Φ, Gorgas Odontological Society.

I am a Poly "boy" and Bob means it, he still roots for Poly first and Md. second. Bob has been making a "windshield" ever since he arrived and we hope he finishes soon. Who knows, he may lecture in Pediodontia some day.

J. H. MICHAEL "John"
 Roanoke, Va.
V. P. I.

Ψ Ω, Gorgas Odontological Society.

Johnny certainly knows that "doughy" feeling. Johnny is also noted for his research on gold inlay castings, and when Manuel is responsible for his outbursts. Not all of us will be able to practice on Park Avenue—Best of luck, Johnny.

LYMAN F. MILLIKEN "Dean"
 Annapolis, Md.

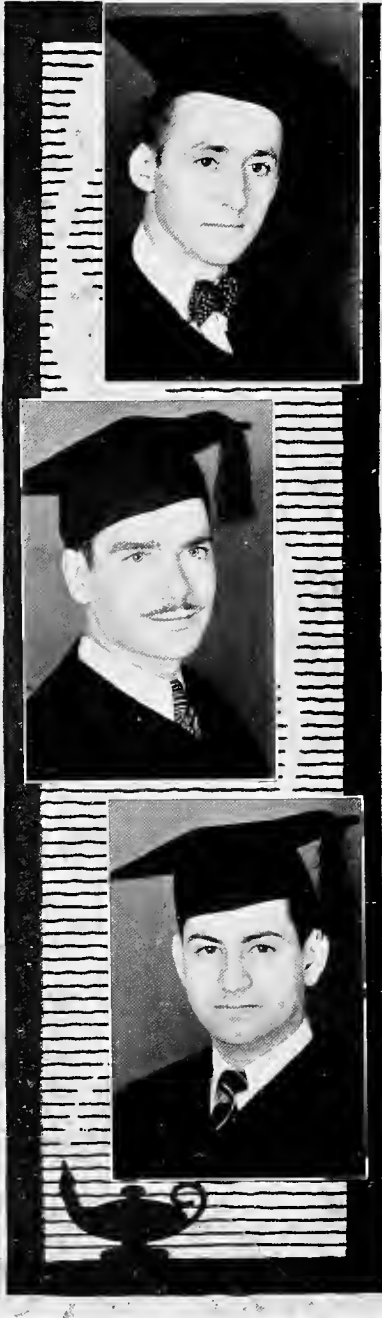

Thornton Academy; Dartmouth College

Ψ Ω, Δ Υ, Gorgas Odontological Society, Class Sec. 5, Gorgas Sec. 5, *Terra Mariae* Contributor 4, Associate Editor of MIRROR 5.

Dean was Asst. Consultant to the Chief Engineer for our new building. Dean's research discovered the devil in disguise—"innocent decay." As far as we know he is the only one to sterilize a plate in an autoclave, ask Dr. Davis.

MIRROR

TONNIE G. MORGAN "Pop"

Pineville, W. Va.

*Pineville High, Univ. of W. Va.,
Concord College*

Gorgas Odontological Society, Treasurer 5, Sergeant-at-Arms 4.

Pop comes from way, way back in the wilds of W. Virginia. When he becomes the company's dentist those miners will certainly know their master. Clinic requirements should have been doubled to keep Pop busy. What a whirlwind of a man.

FRANCIS MUIR, JR. "Frank"

Arlington, N. J.

Kearny High

Ψ Ω, Gorgas Odontological Society,
Gorgas Sergeant-at-Arms.

Frank is another Jerseyite, some chef, too. Can't say much for his bridge game, he needs his signal man. Many a hard break has followed Frank, but deceiving repairs has saved many a man. It is all in knowing how, eh! Frank? How is the beer?

ALFREDO M. NADAL "Al"

Mayaguez, Porto Rico

Mayaguez High

Cosmopolitan Club

Hopkins will never forget "Pop-eye" Nadal. Nadal is wet nurse for Dr. Inman, if you don't believe it, ask him. Next to Fern, he can ask more questions than anyone in the class. Are you up on your outside reading, Nadal?

MIRROR

IRVING NEWMAN "Irv"

Union City, N. J.
Union City High

Σ E Δ, Gorgas Odontological Society,
 Glee Club.

Small of stature—but whatta man!
 "Irv" should have no trouble with his
 "Goliath." Anyhow that's our prediction.
 We may add he is also a great foil oper-
 ator—M. O. D.'s are nothing. Whew!

A. RAYMOND OLIVA "Ray"

Newark, N. J.

East Side High, University of Penn.

Ξ Ψ Φ, Gorgas Odontological Society .

It took a freight car to really stop the
 "great" Oliva. Between his love affairs
 and making plates, Ray has been kept
 busy. Competition in the romantic world
 is tough, isn't it Ray? He really is
 "great" in making inlays.

WILLIAM E. PARKER "Dad"

Suffolk, Va.

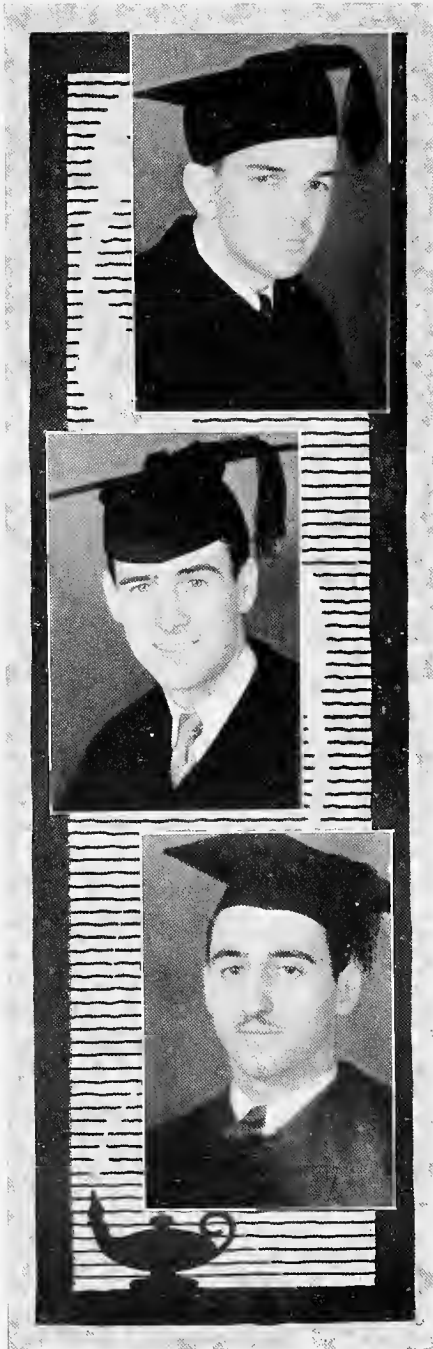

Univ. of Richmond

Π K A, Gorgas Odontological Society.

Wild Bill the finest of Virginia. Bill
 grows fat on requirements—even class II
 foils. The ideal, quiet, home-loving man.
 Bill will always get along with everyone.
 Well, Bill, here is to a jolly disposition
 and a heart of gold (foils).

MIRROR

R. B. PRATHER "Dick"

Clear Spring, Md.
Clear Spring High

Ψ Ω, Gorgas Odontological Society.

Hagerstown has been handy for Dick's week-end jaunts. Sporting a fliver gave him an overwhelming advantage with the fair sex which we don't believe he *always* followed up. On second thought, we wonder if we are wrong.

HARRY M. REID "Harry"

Lisbon Falls, Maine
Lisbon Falls High

As Emily said in Harrisonburg, "the little squirt, I bet he can." Ever since he has been trying to live up to this name. Harry is the "man" who asked Dr. Latcham, "How does it look under the microscope?" Confidentially, Harry is acquainted with a girl named Elaine.

BENNO L. ROSEN "Tex"

Norfolk, Va.

Maury High, Univ. of Virginia

Affectionately known as "Texas"—but we're all wrong; there are no cowboys in Virginia and no drug stores where he hails from. We wonder why—sometimes he's called "The Norfolk Playboy."

MIRROR

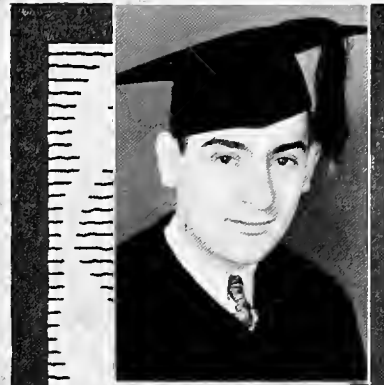

REUBEN ROSENBLOOM "Rosy"

Passaic, N. J.

Passaic High

Σ E Δ, Glee Club 1, 2.

They say "still water runs deep"—also runs smoothly where "Rube" is concerned. Good luck to you, Kid, and we hope you never let that water boil over, or become stagnant.

ABRAHAM FRANK SIDLE "Abe"

Glen Burnie, Md.

Glen Burnie High, Hopkins University

Σ E Δ, Gorgas Odontological Society.

Jolly and gay always, keep it up old kid. Abe comes from the old school—he never has allowed school to interfere with pleasure and yet he wears a key. All we can say is, we hope he is as successful in Glen Burnie.

J. M. STEIGELMAN "Steigelbaum"

Carlisle, Pa.

Carlisle High

Ψ Ω

Jay hails from the land of Dutch. Dear old Pennsylvania. Jay wonders why Dick gets the grades while he does all of their studying. Pennsylvania is a large state, but Carlisle covers a big part of it. That right, Jay?

MIRROR

ALFRED E. THEODORE

"State Board"

Baltimore, Md.

Baltimore City College

A Ω, T E Φ, Gorgas Odontological Society.

Otherwise known as "state-board" and "tip-toe," whose witty remarks and wonderful sense of humor will be missed by all of us. Does he like to take 'em for a ride, ask Basch. Sleek of hair and slick of tongue.

J. L. VACOVEC

"Joe"

Webster, Mass.

Bartlett High

Ψ Ω, Glee Club 1, 2, 3, 4.

"Big Time Joe" believes in eat, drink and be merry—even down in Harrisonburg. He thought the girl's swimming pool was ducky! Some day he'll know the difference between goats and sheep. Remember bidding \$300 for a Packard, Joe?

GEORGES O. VEZINA

"Doctor"

Woonsocket, R. I.

Woonsocket High, Providence College

Ξ Ψ Φ

"Vive la femme!" Attention everybody, I am the big oral surgeon, I am the best prosthodontist, I am a great exodontist, in fact there is nothing I can't do. Go to it George, "a modest man never speaks of himself."

MIRROR

H. MARCUR WEITZEL "Drip"

Carlisle, Pa.
Carlisle High
 Δ Σ Δ

Hail, the gangs all here when Drip comes along. Spends lots of time at Mercy Hospital dances too. Fine fellow at football games—we wonder where he was at the Md.-W. Md. game. He's another fond lover of Harrisonburg Normal.

JOSEPH S. WICKES "Joe"

New Market, Va.
New Market High
 Ψ Ω

Joe the cave-man; stammites and mite-likes and all its relatives are old stuff to Joe. We used to sit and listen to those cave yarns, they sounded swell. Many thanks for the passes, Joe, the five Yankees had a great time.

ALBERT W. WIGGINS "Bub"

Glenwood, L. I., N. Y.
Dwight Prep, Rutgers University
 Ξ Ψ Φ, Gorgas Odontological Society.

Al used to go to N. Y. every week-end, but this year he settled down, yet we think he does it still, on the side. They should have doubled the requirements for Al, too. Go to her Al, rip her wide.

MIRROR

ROY McCOWN WILSON "Mac"
Raphine, Va.
Raphine High, V. P. I.
Gorgas Odontological Society.

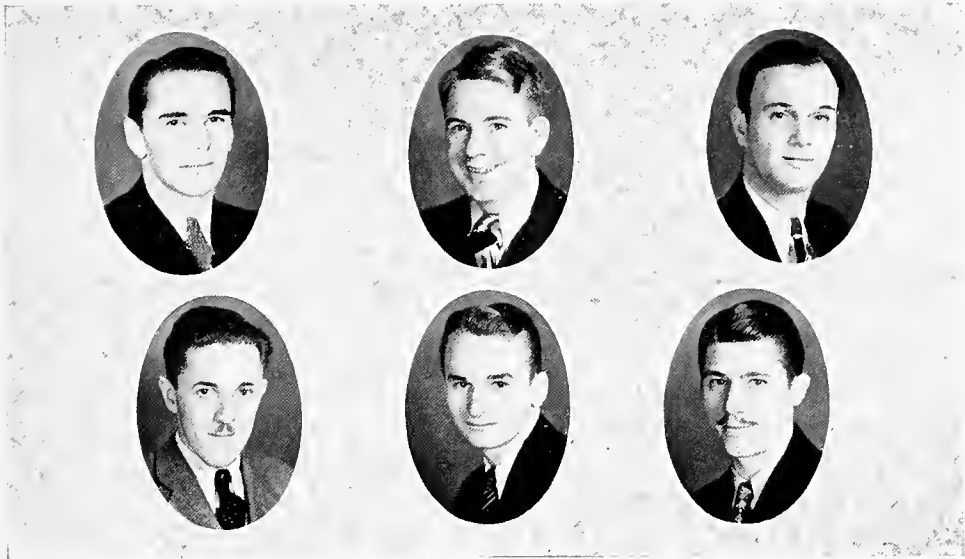

Mac comes to us from the wilds of Virginia, but what four years will do for a fellow! One of the finest technicians in our class, too.

What is Baltimore's loss will surely be Raphine's gain—and how!

JUNIOR CLASS HISTORY

We, the members of the Junior Class, completed the freshman year with a roll call of eighty-seven and have the distinction of having acquired new members rather than having lost old ones during our march of progress through the intricate network of our first three years.

The present year finds us still with a larger number than with which we started, and incidentally the largest Junior Class in years, which gives us faith and encouragement in ourselves as well as deep and lasting pride in having shared in part the success of our new and modern school.

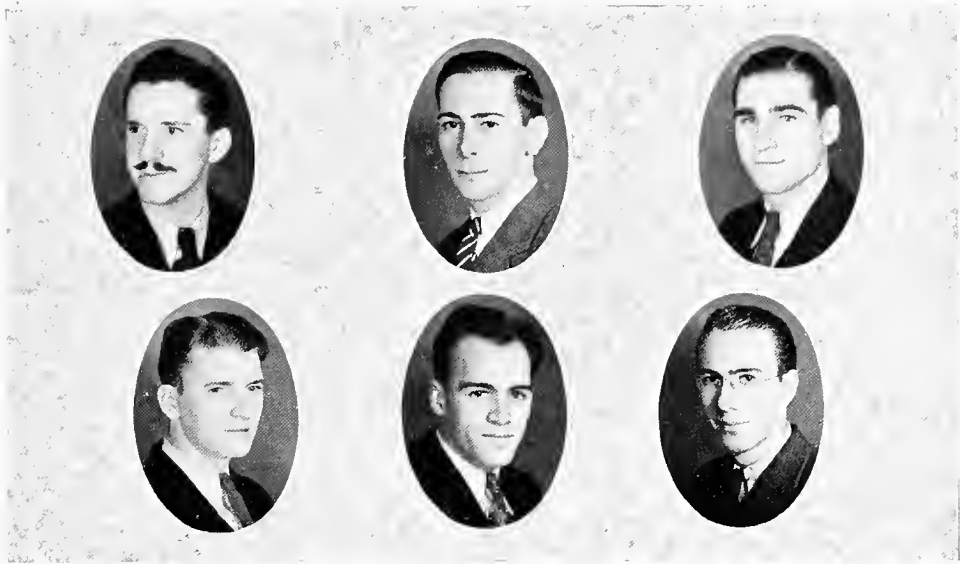

As in the history of a nation, so must we, in our chronological recollections call to mind our competent leaders of the past, Goe, Lora, Hamilton, and Bowers, who under the protecting influence of our most judicious Dean, Dr. J. Ben Robinson and his associates made possible the noteworthy achievements of our class.

The beginning of this year marked our introduction to the clinical aspects of dentistry to which we responded with some degree of temerity and trepidation. It was here that we had recourse to the wise council of Captain Bowers to aid us in our many and varied complexities, in all of which he has displayed admirably, the talents with which he is endowed.

Having, at least in part, overcome many of the obstacles with which our path is strewn, we may look forward with utmost confidence to a successful entry into our Senior year; there to round out the etching of achievement of an illustrious class upon the escutcheon of a flawless Alma Mater.

HISTORY OF THE PRE-JUNIOR CLASS

The class of '34 enjoyed a well-earned vacation after an arduous year spent in "grinding" anatomy, histology, and other equally difficult subjects. Some of the less fortunate put in a goodly portion of the summer delving into the elusive mysteries of organic chemistry—the less said about that the better.

The summer months passed with the rapidity of a dream and before we were clearly cognizant of the fact, it was time to pack trunks and bags and be headed back to Baltimore for another eight months of work. Each successive year makes it more easy to return to school and get down to work, and we are glad to report that the attacks of 'home-sickness' occur less frequently than in former years.

The question of class officers became a foremost issue early in the year and every faction settled down with the earnestness of politicians in an effort to give their candidates the chance to guide the destinies of the class for another year. As election day approached, the class became divided into two distinct and organized political camps. The election is now history, the candidates of one entire party, with the exception of one man, were swept into office.

F. C. BIDDIX, JR.	<i>President</i>
JACK YERICH	<i>Vice-President</i>
JOSEPH PICHACOLAS	<i>Secretary</i>
THEODORE WYCALEK	<i>Treasurer</i>
FRANK SABATINO	<i>Sergeant-at-Arms</i>

After elections, the class as a whole settled down to work with vim and vigor. Experience is a great teacher and the losses of the part may be turned into gain in the future—I repeat, the class got down to work. The midnight oil obviously was consumed in enormous quantities for the results of midyear examinations were gratifying to nearly everyone.

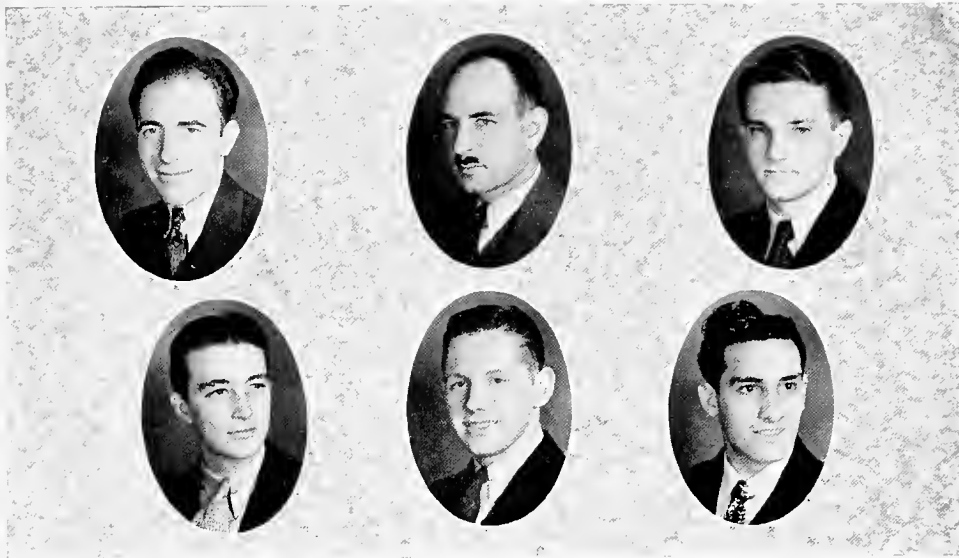

The subjects and techniques of the Pre-Junior year, we agree, are the most interesting yet encountered in our strivings for the coveted D.D.S. We admit that the courses we thought to be dry and monotonous during our first two years have now proven themselves to be basically important in the work we are now going through. I imagine that occasionally we are all annoyed by the still, small voice—'If I had only studied just a little harder.'

We all hope to make the class of '34 one that the Dental School will be proud to remember in the years to come. In order to obtain that end, we know that it means sacrifice, hard work, and diligent application.

HISTORY OF THE CLASS OF '35

The autumn of 1931 found the class of '35 on the second stage of the ascent up the steep hill of knowledge towards the coveted degree of Doctor of Dental Surgery. A few gaps appeared in our ranks of the previous year, but they were more than filled by a large number of transfer students to whom we extended a hearty welcome.

The first event of the year of historical interest was the election of officers. The class chose as officers the following:

R. J. CRAIG	<i>President</i>
J. B. MORRISSEY.....	<i>Vice-President</i>
M. RUBIN.....	<i>Secretary</i>
R. A. SEVENS	<i>Treasurer</i>
A. JORJORJIAN.....	<i>Sergeant-at-Arms</i>

In the short space of time from their election until the writing of this history has proven beyond any shadow of a doubt the wisdom of such a selection.

The serious business of studies engrossed the members of the class during the first few months of school, but as the waning year made its last vain struggle against the grim scythe—Time; there was born the sensation of the year in the world of sports.

The hockey team, drawing its largest quota from the class of '35, burst upon staid old Baltimore like a bomb out of a clear sky. By virtue of its brilliant attack, masterful defense, and smooth-working passing; this team of teams traveled by leaps and bounds to the very top of the league sweeping all before it in its relentless onslaught. But it is useless for us to attempt to add to its glory, for it would be as difficult a feat to attempt as it would to endeavor to add brightness to the sun. Let us not attempt it.

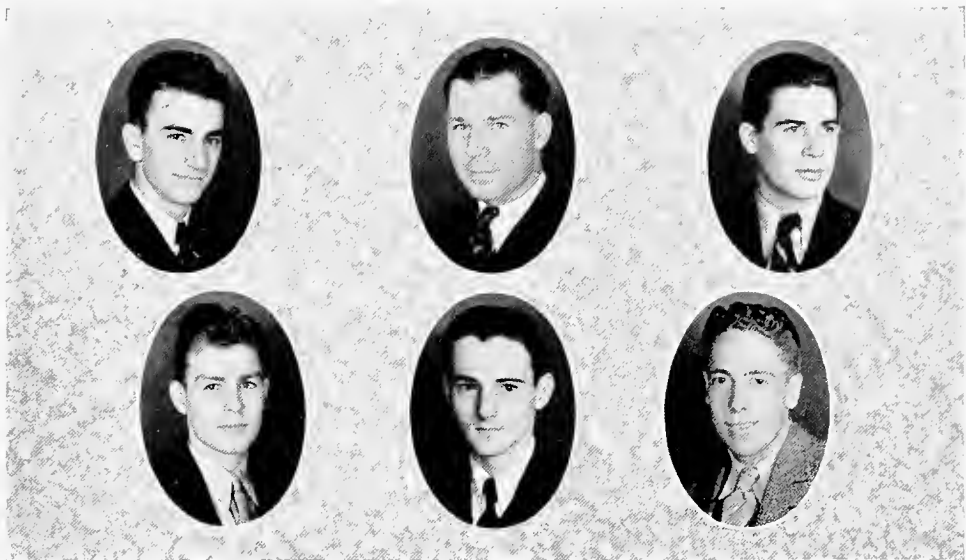

On April the 1st of this year, the class conducted a semi-formal dance in the main ballroom of the Hotel Belvedere. Under the able management of the dance committee it was conducted with enormous success, as those of you readers who attended may well attest.

It would seem that any class would be content to rest upon the laurels of such successes, but not so with the class of '35. Not content with excelling in the fields of sports and sociability, the class has excelled in scholastic endeavors and has even ventured into the domain of music by presenting a quartet of undeniable merit and promise.

The Gods have been kind to us this year and have showered our every effort with success. Let us hope that, as the curtain of time is drawn back on the future years, fortune will continue to smile benevolently upon the class of '35.

ALLAN O'GORMAN,
Historian.

HISTORY OF THE FRESHMAN CLASS

*However dark our night may seem
O'er shading life's eternal sea,
Endeavor's light shall guide our bark,
Determining our destiny.*

A sort of sublime awe predominated over our late freshman class during last September's matriculation proceedings. The sentiment, however, indicative of an inexperience akin to absolute ignorance, was excusable; and with the foreboding premonition of numerous months of arduous study ahead, the future class of '36 began its five-year climb of culture.

Venerable doctors and professors, an atmosphere of mystifying knowledge, and the stumbling blocks presented by certain new methods of instruction, all had their early effects upon the freshmen and served to establish more completely the maxim in our minds that, "In all failures the beginning is certainly half of the whole." Our beginning was not a failure, but our former number of members, a total of seventy-six hopeful aspirants for dental degrees, was diminished to the comparatively low figure of sixty-five struggling students, who continued to weather the academic gale after the mid-year examinations.

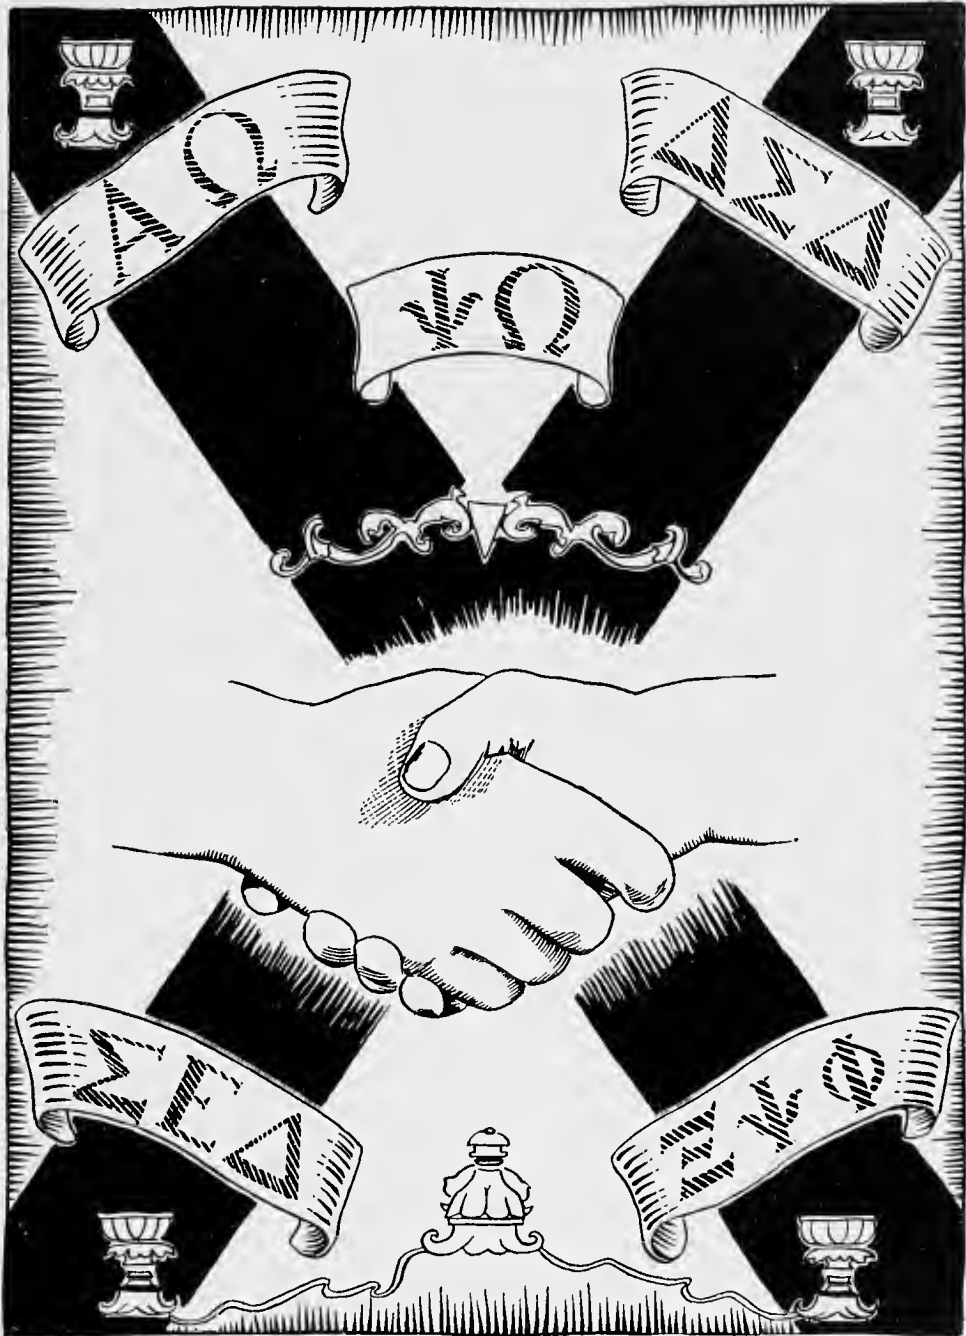

The election of class officers was held during the month of November, nineteen thirty-one. The vote for president and vice-president resulted in the hasty approbation and election of Everett Meyer and William Decesare, respectively. The remaining officers were appropriately filled in the following order:

BERTON McCAULEY.....	<i>Secretary</i>
J. HINTON SHACKELFORD	<i>Treasurer</i>
FRANK MULLER	<i>Sergeant-at-Arms</i>
RALPH HODGES.....	<i>Historian</i>

The success of our social activities and the general enthusiasm of our group as a whole is mute evidence of the fine spirit shown by these men.

A certain rectitude of spirit, the ever-living salvation and happiness of any man who finds beauty in truth, should be the eternal object of our earthly striving. The wondrous satisfaction that results from the completion of an honest day's work is probably the most gratifying happiness experienced throughout our lives. Any anomalous attitude taken toward these laws of our lives invariably results in such flaccidity and inconsistency of nature that the person whose living is conducted in such a manner must sometimes sink into very unhappy moods. He will certainly never have the constancy of happiness which characterizes his more conscientious brother. We are but children searching and struggling through a lonely forest of doubt in search of that fabulous city of happiness which should be the ultimate realization of all our idle dreams; but let us not forget that without our due allotments of hardships our rewards will never be appreciated.

RALPH HODGES,
Historian.

PSI OMEGA HOUSE

HISTORY OF THE PSI OMEGA DENTAL FRATERNITY

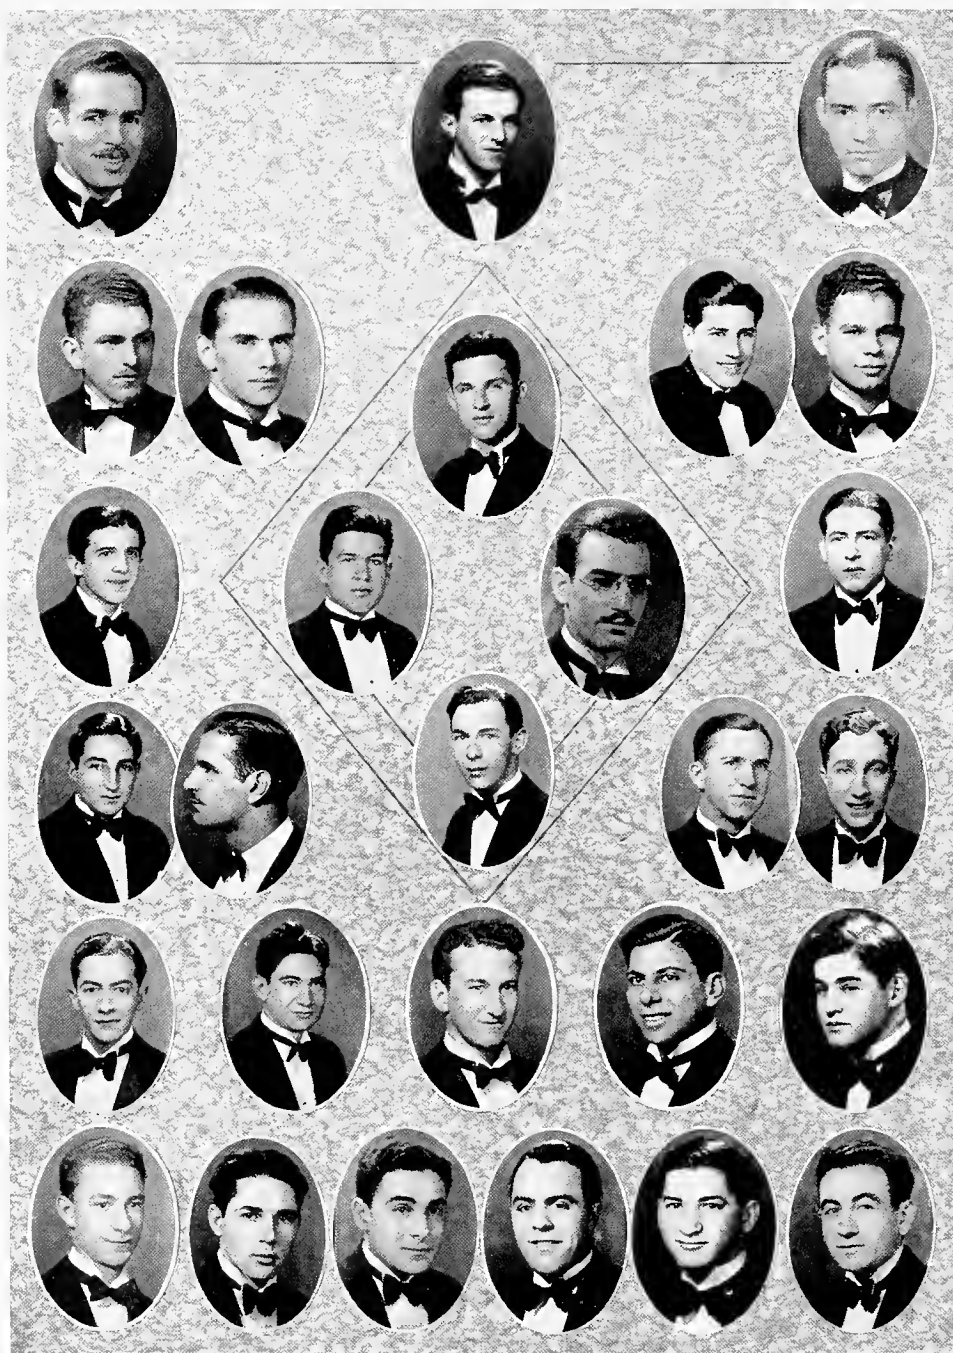

The Psi Omega Dental Fraternity was organized in Baltimore in the spring of 1892, at the Baltimore College of Dental Surgery. In the fall of the same year, the first meeting of any great importance was held at which time additional members were added. This group constituted and represented the first chartered gathering.

The original chapter continued active up until the time of amalgamation in 1925 of the Baltimore College of Dental Surgery and the Dental Department of the University of Maryland. Following the amalgamation of the two schools, Phi Chapter of the University of Maryland and Alpha Chapter of the Baltimore College of Dental Surgery decided to combine the activities of both and preserve the name of the mother chapter. The combined chapters now function as one—Phi-Alpha in the Baltimore College of Dental Surgery, Dental Department, University of Maryland.

Psi Omega aims to elevate the standards of the profession, to encourage scientific investigation, literary culture, and stresses friendship and loyalty as the two great attributes of fraternalism.

The Fraternity's Fortieth Anniversary is being celebrated this year and even though it was the third to be organized, it has grown from the time of its origination to be the largest dental fraternity. Its members now number more than sixteen thousand and is represented in active and alumni chapters in all parts of the civilized world.

ALPHA OMEGA HOUSE

THE HISTORY OF THE ALPHA OMEGA FRATERNITY

The Alpha Omega Fraternity had for its nucleus a group of men attending the University of Maryland Dental School in the year 1907.

On December 20, 1909, the name Alpha Omega was officially adopted. The Zeta Chapter being located at the University of Maryland.

Shortly afterwards, the Mu Chapter was formed at the Baltimore College of Dental Surgery and with the amalgamation of the two schools, the present Zeta Mu Chapter of Alpha Omega had its beginning.

With our fraternal principles of Scholarship, Friendship and Bearing, we have been able to expand throughout the country and into the Dominion of Canada. At present we number over twenty-five hundred members active in twenty-eight dental schools and fourteen alumni groups.

The year 1932 marks the twenty-fifth anniversary of our founding and we are happy to say that the City of Baltimore and the University of Maryland, the birthplace of Alpha Omega are to be the hosts of the Grand Silver Jubilee.

HISTORY OF XI PSI PHI FRATERNITY

ETA CHAPTER

By VERNON B. MARQUEZ

The chain is now broken. After forty-two years of fraternal endeavor, in which we were so fortunate as to have our six Illustrious Founders with us, Brothers Waterloo's, McCoy's, and Gary's death removes from our roll men who helped organize Xi Psi Phi at Ann Arbor almost forty-three years ago.

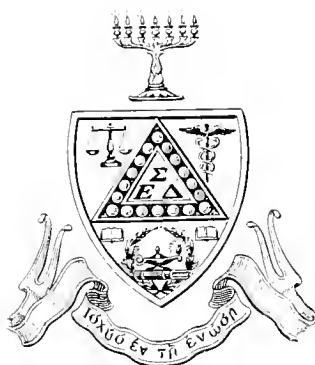

Xi Psi Phi Fraternity was founded at Ann Arbor, Michigan, on February 8, 1889. The charter members, six in number, of whom three are living, proud of their endeavor and gratified that Xi Psi Phi has grown to the extent of thirty-two chapters with an almost equal number of alumni chapters.

The first subordinate chapter to be organized was Delta Chapter, February 21, 1893, at the Baltimore College of Dental Surgery. In 1923, Delta Chapter merged with Eta Chapter at the University of Maryland Dental College. Previous to this, however, the Alpha Beta Chapter of the Baltimore Medical College Dental Department had merged with Eta in 1912.

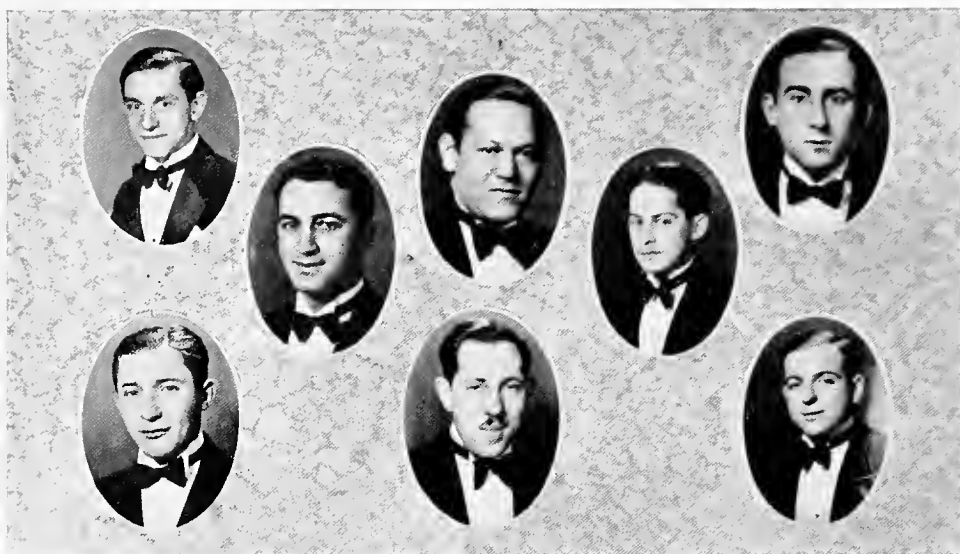

The obligations which we of Xi Psi Phi assume are those of fellowship, scholarship, and morality. It is our aim, in fulfilling these obligations, to make Xi Psi Phi stronger and a pride to the University of Maryland.

The men who are leaving us this year to take their places in the professional world have proven themselves as men of character and worth wherever they may go. We wish them success for we feel that we have been justified in placing quality above quantity and we are proud of them.

HISTORY OF SIGMA EPSILON DELTA

Sigma Epsilon Delta, national dental fraternity had its inception at the New York College of Dentistry during the summer of the year 1901. The need of an organization to aid and advance the interests of a great mass of undergraduates was felt by Dr. Arthur V. Greenstein, who united the five charter members, who today are living and proud to have been the founders of an organization whose roots are now firmly implanted in the leading universities of the East, and innumerable alumni chapters fostering the highest ideals of dentistry.

Epsilon Chapter of the University of Maryland was organized on February 22, 1926. At that time there were nine members and since then it has grown until today it takes its place among the foremost organizations at the Dental School, whose object is the promotion and perpetuation of fraternalism.

To our fraters who are leaving us this year to take their yet uncharted places in the professional world of their choosing we extend our congratulations and well wishes. They have but to follow the lead and ideals of those who have left in the previous years and success is assured them.

DELTA SIGMA DELTA REPORT

On May 16, 1931, there was a beginning of a new fraternity in the life of the Baltimore College of Dental Surgery, in the name of Delta Sigma Delta. The Alpha Chapter being founded at the University of Michigan College of Dental Surgery at Ann Arbor, in 1882. The chapter installed here is Xi Xi Chapter.

Delta Sigma Delta has thirty-two subordinate chapters in the foremost dental schools of the United States, and also sixty-one very active auxiliary chapters in this country and in London, Paris, Australia and Holland. This fraternity is the oldest dental fraternity in the world and likewise one of the most active fraternities in the professional world.

At this time, we of Xi Xi Chapter, wish to give to our friends in other fraternities at University of Maryland, the best wishes for the coming year.

GORGAS ODONTOLOGICAL SOCIETY

In the winter of 1915-16, a group of students and faculty gathered together for the purpose of forming a society, which would stimulate the effort for high scholarship. It was called the Gorgas Odontological Society after Dr. Ferdinand J. S. Gorgas, a pioneer dental teacher and dean.

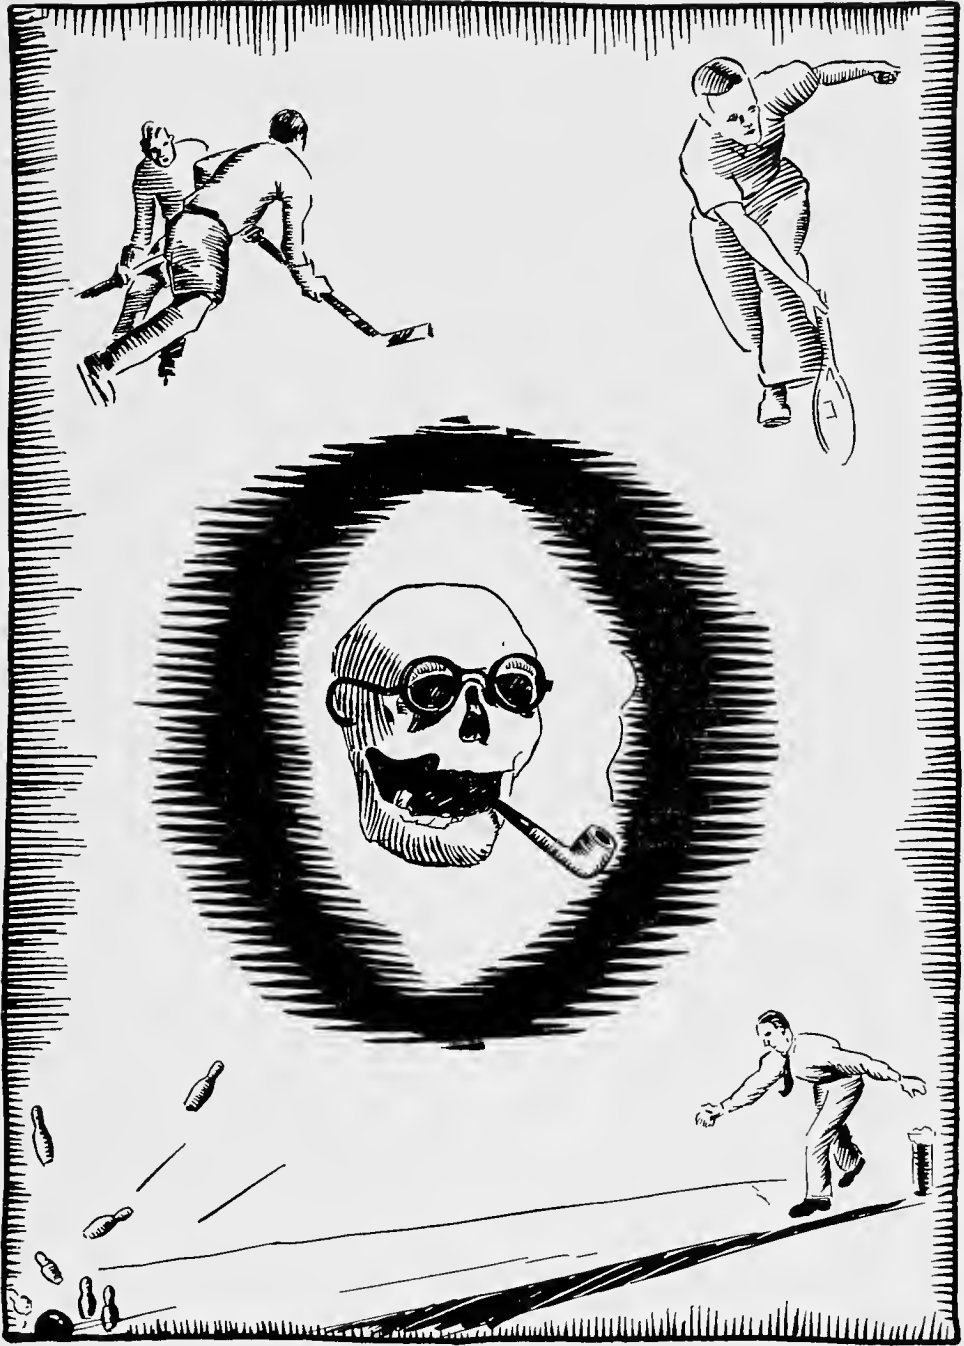

The first president of the society was Dr. J. Ben Robinson, our present dean, then a member of the faculty. Ever since, the officers have been undergraduates.

The societies' life has been interrupted, but at present has a strong and large membership. The purpose from the beginning has been to urge the student to higher scholarship, and membership is sought for and treasured, once obtained.

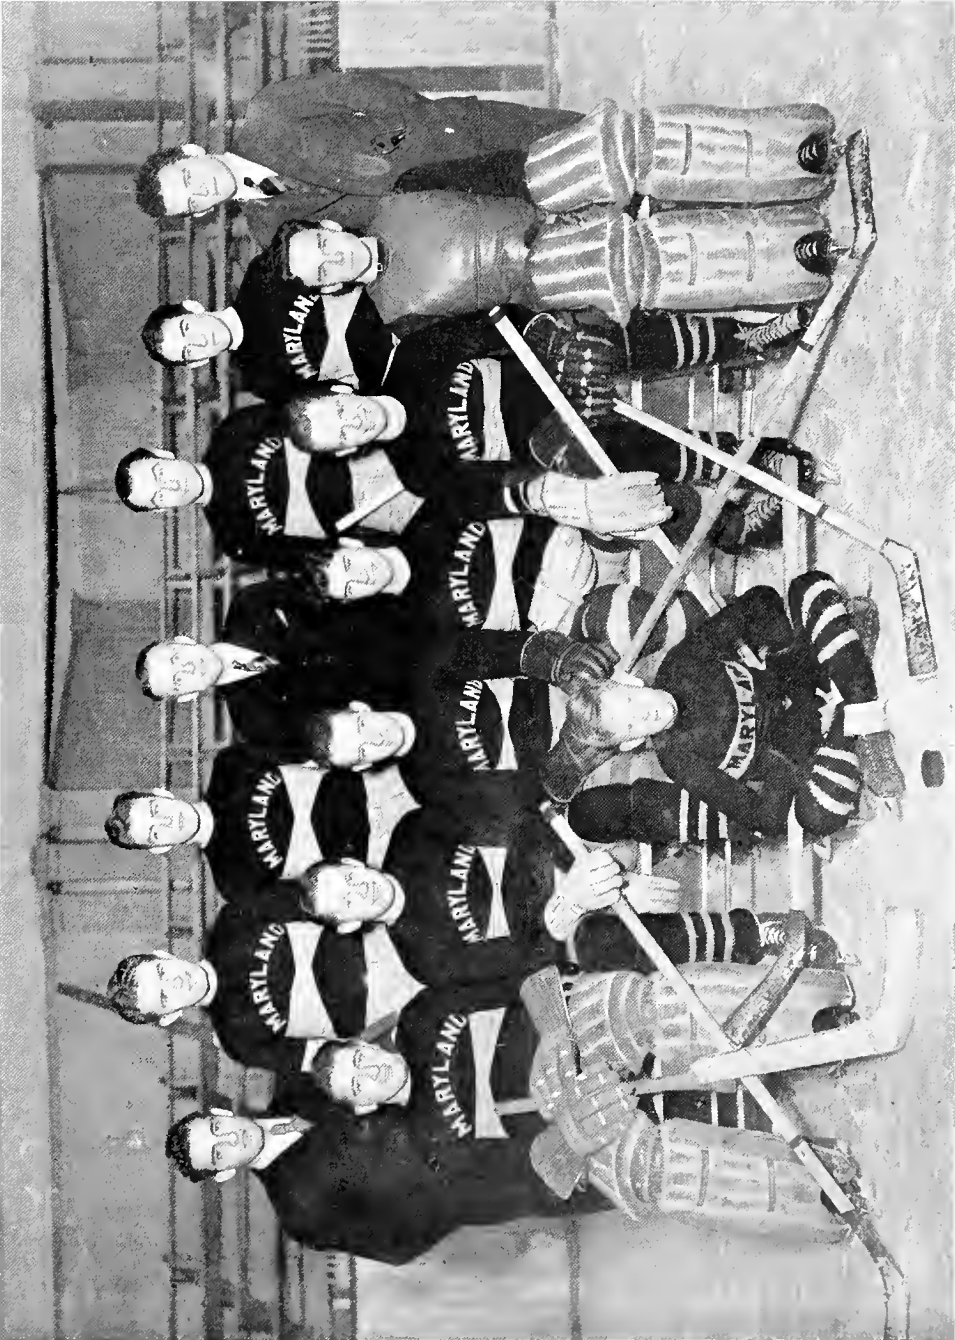

The members wear a key, modeled somewhat after a Phi Beta Kappa key, and receive a diploma upon graduation. A roll-call of the past, lists well over three hundred members and includes many of the present faculty.

May the principles on which it was founded endure through the march of time.

L. F. MILLKEN, *Secretary.*

IF E A T U R I E S

ICE HOCKEY

By JOHN J. HOULIHAN

Ice hockey, inaugurated very successfully into the Dental School this past winter, resulted in being the most popular sport introduced at the University in years.

Maryland played its first game of the season against Johns Hopkins University and demonstrated that it was, and continued to be throughout the year, the most skillful team in the Iceland League. In this first game the hard fighting of the Hopkins players was no match for the dexterous stick handling of the dentists who won 10 to 5.

Captain Fred Cuddy of Providence Rhode Island, who received his preliminary hockey education at Cranston High School and with Hebron Academy, the Maine champion, taught the fans that he was the finest player in the League and made a record of the most assists during the season and was second in the number of goals scored. Taffy Kobrinsky, who captured the high scoring honors in the League, played with St. Bonaventure in Winnipeg, Canada, and transferred to Maryland from the University of Manitoba. The early season supremacy of the Dental Students can be directly traced to their early association with hockey in New England or Canada since all of the players came from these regions.

"Dick" Stevens of Rutland, Vermont, was the steadiest defense man in the League and when paired with "Ray" Gillespie of New Haven, Connecticut, an extremely fast and elusive skater, were stalwart protectors of the Maryland goal, and rarely did any opposing player pass their defense zone and remain on his skates. Both of these boys body checked most skillfully. Louis d'Argy, son of Dr. Louis d'Argy, a B. C. D. S. graduate of the Class of 1904, hails from Waterville, Maine, and he played stellar games at the goal for the "Dents."

"Joe" Scanton, born in Pawtucket, Rhode Island, son of Dr. Joseph H. Scanton, Maryland alumnus, Class of 1913, was one of the finest puck-chasers in the League. He transferred from Manhattan College and first played hockey at La Salle Academy. Ralph Hodges, playing wing, was one of the most elusive of puck carriers. He played wing with Technical High of Providence where he was born. "Bill" Walsh, son of Dr. T. J. Walsh of the Dental Class of 1898, played amateur hockey at St. Johnsbury, Vermont. He saw action in many games throughout the season. "Gus" MacKenzie was born in Prince Edward Island, Canada. His ability to body check earned him much applause during the season.

Games were won by Maryland as follows: Maryland 16, Mt. Washington 2; Maryland 7, Walbrook 1; Maryland 19, Forest Park 2; Maryland 10, Green Spring Valley 2; Maryland 5, Hopkins 3; Maryland with Captain Cuddy injured, lost

the game to Walbrook 13 to 5, but a week later, with Captain Cuddy back in line, Mt. Washington was defeated 9 to 5. Then Maryland continued to win by these scores: Maryland 11, Forest Park 3; Maryland 7, Green Spring Valley 0; Maryland 4, All Stars 3.

At the close of the hockey season a tie resulted between Maryland and Walbrook and a play-off of five games was decided upon. Walbrook won. The scores of the five games were: Maryland 7, Walbrook 2; Maryland 5, Walbrook 7; Maryland 5, Walbrook 2; Maryland 1, Walbrook 11; and the last game Maryland 5, Walbrook 7. Sheer reserve power, not exceptional ability, resulted in Maryland's defeat in these last games.

Throughout the season the fine guidance and coaching of Dr. Harry B. McCarthy, assisted by Dr. Joseph D. Fusco, who were both initiated into hockey in New England, helped to polish the team work, correct offensive and defensive flaws and generally, to carry along the splendid morale of the players.

Arthur Jorjorian, the team manager, worked extremely hard during the season and in one instance substituted very creditably as goalie for Louis d'Argy who was ill.

We certainly appreciated the earnest cooperation and work of Joseph Black, William Decesare, and Brainerd Swain, who greatly assisted the team during the hockey season.

At the close of the season a testimonial dinner was given the team by the teaching staff of the school and other admirers of the players on the evening of Wednesday, April 13th, in the ballroom of the Southern Hotel. Dr. B. Lucien Brun, President of the National Alumni Association of the school presided at this dinner meeting, and the speakers included Mr. H. C. (Curley) Byrd, Athletic Coach of the University and Rev. Louis Vaeth, who was a chaplain of the 313th Division of the army during the World War. Dean Robinson in his talk lauded the members of the team for their skillful playing as well as for the good conduct adhered to at all times while participating in the several conflicts, and he presented each player with a medal suitably inscribed. Dancing followed until the early morning hours.

The committee who arranged this banquet was as follows: Dr. Myron S. Aisenberg, Dr. J. D. Fusco, Dr. Burt B. Ide, Dr. Conrad L. Inman, Miss Katharine Toomey, and Dr. Walter L. Oggesen, Chairman.

This brought to an interesting wind-up the 1931-32 hockey season.

WONDER—PONDER—FUMBLES

If Dern, Manuel and Michaels still wear their gowns following the horses—who carries the broom and shovel.
About our sleeping cinderella's—Chandler, Steigleman and Garrett.
How Fern is practicing "habit changing."
If Jennings signs all his degrees when traveling.
When a yellow tooth is indicative of jaundice—ask Broadrup.
Attention: Mr. U. of M., Doctor, Surgeon—who??
Englander—Why faint heart ne'er won fair maiden.
In study of rickets—Why Tex Rosen didn't understand about foreign milk.
Ask Theodore "T. T."
Who the 1932 A. K. is.
We question Smoky Joe Feldblum's physiology—so does Dr. O. H. Gaver.
That technic of Berman's in using "pasting" stick—ask Mrs. Carroll.
About the cellophane wrapping on "Handshaking Happy Applegate's" hand.
Dr. Gaver—Relieve the hard spot.
Cheney—You mean the torsus palatinus?
Dr. Gaver—I call it a hard spot.
Whose carrying the bananas to the pathology dept.—now that Reid and Feldblum leave.
Well! What'll you have—zygomatic or a mandibular?—Hergert.
Let's not forget Boxer's personality plates and Englander's "Who struck John stuff."
Post Graduate Work—Ten weeks.
About Grosshan's pun to Dr. Leonard—"You know that as well as I do."
Remember Don Farrington's inlay—Dr. Davis said the margins could be caught with flask tongs.
Combinations not easily forgotten: Fluoroscope Fern—"Well, you see doctor, I'm going to try it anyway." Stereoscope Graves had his misconceptions—horoscopes, stethoscopes.
Coleman's slant on marriage, with respect to our ultimate success.
Hergert's leading ability in exodontia.
Dr. Latcham—Now, I want you to condense this.
Student—Well, I'll be foiled again.
Ben Rosen—"If your nose was full of nickles would I be rich."
We wonder who is the "Hammonasette Money"?
Gene Hill—Am I taking gas!
Theodore—Dental caries is not a disease, it is a pleasure.

APPLEGATE—"Give me a cigarette."
BALL—Is taking home something besides a diploma.
BASCH—The great diagnostician.
BEAMER—Big silent man, but a bearcat with the women.
BERMAN—"The front of the tooth." "the top of the tooth," etc., etc.
BESSETTE—As a side issue, a big handicapper.
BOXER—"Do me a favor please?" "Righto."
BROADRUP—"Wish the gol darn women would leave me alone."
BRYANT—"One more time then I'll give myself up."
CHANDLER—Has now taken up A-R-T.
CHENEY—The blonde will surely love Maine.
COLEMAN—"I am so worried."
CORRIGAN—"Put me on the roll."
DERN—"Give me a hand won't cha?"
EDMONDS—"I'll tell you what I've got lined up."
EMORY—He may be the youngest, but——??——???
ENGLANDER—"Don't give me any of that who struck John stuff."
FARRINGTON—The only historian who has kept his job.
FELDBLUM—Clean from Pittsburgh.
FERN—"Don't send me flowers," "give me groceries to carry in my B. B."
FRANKEL—Has part interest in the cooperative lab.
GARRETT—"Let me take your hand piece." "Loan me your explorer," etc.
GITLIN—Dr. Bay's associate.
GOODKIN—One man who is true to the girl back home.
GRAVES—His theme song, "How Long Will It Last?"
GROSSHANS—Can pose in any picture, any scene. Good in romances.
HERGERT—Can he extract teeth?????
HILL—Baby face.
HILLS—Who was the girl he fell for while dancing at Sherry's?
JENNINGS—Still going steady with Johnston.
JOHNSTON—One of the Zilch family, but true to Jennings.
JONES—Knows all about the Pocono Mountains.

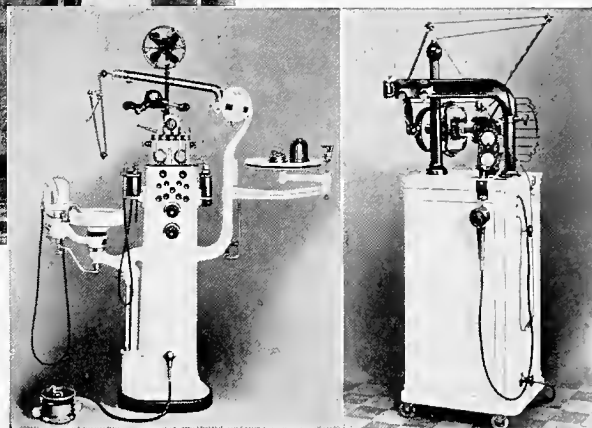

KANIA—195 pounds of ————. (A regular guy.)
KAPLAN—A total stranger to Dr. Hurst.
KENDRICK, VANCE—"Vaiden helps me with all my work."
KENDRICK, VAIDEN—"Vance helps me with all my work."
KERSHAW—The Walter Winchell of the Senior Class.
LINDER—Good old Gention, Gandhi's pet.
MacKENZIE—A wizard on skates.
MADDEN—I wonder if there is any beer in Virginia.
MALDONADO—"Two strangers gave me a dirty look."
MANUEL—"Got any acid?" "Wait, I want to show you the sugar foot."
MICHAEL—"You know what?" "We ain't got no flag." Etc. Etc.
MILLIKEN—"Oh! Have you met Agnes?"
MORGAN—"Who in ——— made me treasurer?"
MUIR—"I wonder where that patient is." "Has anyone asked for me?"
NADAL—The fastest worker with the girls in the Senior Class.
NEWMAN—"I must have sex appeal." "All the women confide in me."
OLIVA—"Do you think she does?" Etc. Etc. "Great grief."
PARKER—"I got fat eating cabbage."
PRATHER—"I have a ———."
REID—"Hurry up Hills." "Come on Hills."
ROSEN—"Hello everybody," this is the songbird from the South.
ROSENBLOOM—One good reason for the success of S. E. D.
SIDLE—"Give me some more of that pink ice cream."
STEIGELMAN—Can do wonders with a toothpick, a pin and a curse.
THEODORE—"Oh! Boys, don't miss it this week."
VACOVEC—"Drop over some night and try our home brew."
VEZINA—"I am taking P. G. work and teaching on the side."
WEITZEL—"Do I know where to get good beer in West Baltimore?????"
WICKES—"I wonder just what my capacity is."
WIGGINS—"How come I don't get "A" classification?"
WILSON—"It's most time to turn in." The great lover.

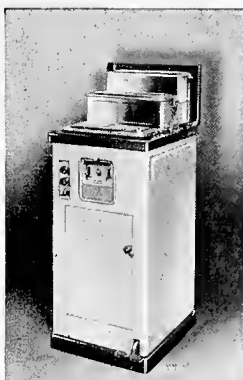

Essential operating equipment consisting of Ritter Foot Pump Chair, Ritter Compressor, Cabinet and No. 10 Ritter Trident with Ritter Thermo-Water Syringe and new Ritter Hand Piece can be installed for as little as \$1400.00

Take advantage of Ritter Architectural Service. This office planning service is free to all users or prospective buyers of Ritter equipment.

Above: Ritter equipped operating room. Right: Ritter Model "D" Unit and Ritter X-Ray machine. Below: New Ritter Sterilizer, Ritter Motor Chair and Ritter Compressor.

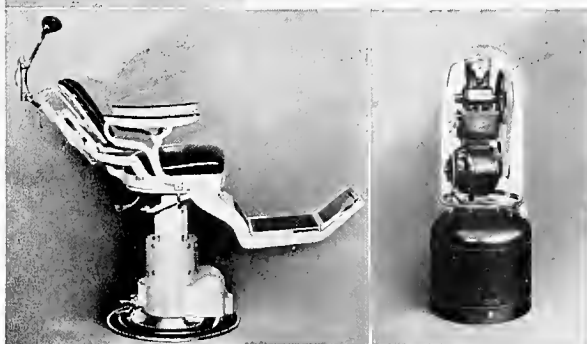

Worth the Difference

To you, young man, about to start your professional career, the choice of dental equipment is a matter to be carefully considered. You will want equipment that is modern in design, utility and construction; equipment that will save you many tiring steps and needless effort; equipment that will convince your patients that you are capable and progressive.

Don't handicap yourself at the start with poor equipment. Take advantage of Ritter's forty-two years of experience . . . compare the values and you will see why Ritter is Worth the Difference! Ritter Dental Mfg. Co., Inc., Rochester, New York.

RITTER

OUR CREDITORS

The honorable "Dr. Watch'um."

Dr. Mott—Try and get on the roll.

The banana man—Dr. P. Deems.

Short remarks and topics of interest—Dr. W. A. Anderson.

Dr. H. B. McCarthy—Our hockey team coach, for his splendid success in our team this year.

Dr. Browning's technic in having the fair sex return and ask for him.

The seniors bowling ability to the faculty team.

Dr. Davis in extracting from Milliken his method of denture sterilization—autoclave.

Drs. Dorsey and Fusco—Too much is needed to express our appreciation here.

The "Cradle of Ideals"—We shall never forget that memorable row of thirteen chairs.

Dr. Fusco—"And to think you're only a student." Dr. Inman had something to do with this.

Dr. Eggatz—His roll call at 10.00 P. M.

Dr. Bay—"Bring me in all you know about cellulitis".

"What do you know about it, Dr.?"—Dr. Wilkerson.

Dr. O. H. Gaver—"And death will follow."

"Now I am glad you asked that".—Dr. Ide.

Dr. Leonard—"We've got five more minutes to kill."

"I'm from New Britain."—Dr. Aisenberg.

Dr. Karn—"You fellows give Miss Lee a break."

"Hello 'shayges'!"—Dr. Oggeson.

Dr. Sussman—"Clean up structures—clean up structures."

"Anybody want hockey tickets?"—Dr. Inman.

Dr. Towill—"Isn't anyone else on the floor?"

American Dental Cabinets Are Preferred by Successful Dentists

A careful tabulation of successful dentists in the U.S.A. shows that they prefer American Dental Cabinets.

In the 450 Sutter Bldg., San Francisco there are 202 Dentists and 210 American Cabinets.

In the Marshal Field Annex, Chicago, there are 300 Dentists and 450 American Cabinets. The Pittsfield Bldg. has 225 Dentists and 300 American Cabinets.

American Cabinets have won their pre-eminence in the dental field by virtue of their superiority in design, and quality features.

Always years ahead of the nearest competitor, they are sometimes copied but never equaled.

Our goods may be purchased from the dealer, in combination with chair, engine, etc., and in fact a complete outfit, on one contract on easy monthly payments.

We will exhibit our cabinets in your city and hope to see every member of the Senior Class.

A CDX Dental X-Ray Unit

You Will Need One in Your New Office

LEADERS in the dental profession have their own X-Ray units. They find that making their own radiographs enables them to spend their time more profitably and speeds their work with greater efficiency and accuracy. The fact that many of these leaders have chosen the CDX Dental X-Ray Unit evidences its superiority.

The CDX Dental X-Ray Unit hangs suspended from the wall. It is 100 percent electrically safe. You and your patient can touch the CDX while in operation without any danger of shock.

And owning a CDX is not an expense. Our liberal monthly payment plan will enable you to pay each monthly installment from the revenues derived and still have a profit. In starting out you cannot afford to be without this important tool of your profession. Write for full information.

S. S. White Operating Equipment

Diamond Chair
Equipment Unit
and
Operating Stool

Let us help you plan your office. We have rendered this service to your predecessors in the profession for many years, why not take advantage of the offer—it's free.

Albeit fine feathers do not necessarily make fine birds, or clothes the man, an impressive showing is a valuable asset. The environment into which you invite your patients, subtly tells whether or not you are progressive and successful.

There are three factors of prime importance in the success of a dental practice. The first can be considered as knowledge, skill, and experience; the second as personality; the third, environment. Knowledge and training should of course be the deciding factors in judging a dentist's ability.

Unfortunately these are too often judged last by patients. They estimate a man's ability first by his surroundings, then by his personality, his skill and training last. Fair or unfair, this method of mass approval is nevertheless a fact.

S. S. White Equipment will make your office a modern operating room. It is graceful, dignified, will impart the proper atmosphere, and give a uniformly dependable service. The Unit brings the automatically warmed sprays, the mouth and antrum lamps, cauteries, warm air syringe and cut-off with graduated air pressures, and thermal instruments, close to the field of operation for comfortable and efficient operating.

It will extend the limits of your services and certainly make your time mean more dollars for the hour.
